

Driving DuPage Forward

Access to Health Services Action Plan – Year One Progress Report

Goal 1: Comprehensive Enrollment in Available Benefits and Services

All members of the target population eligible for health insurance coverage, coordinated health access and other resources are properly and promptly enrolled in the appropriate program. Barriers to enrollment are thoroughly evaluated, and DuPage County partners develop effective strategies connecting individuals and families to programs for which they qualify.

<p>Outcome Objective 1: By December 31, 2018, increase the percentage of DuPage County residents that have any type of health coverage using the following metrics:                  Enrollment in Access DuPage will exceed 6,500 members annually by 2018 (versus current 5,000 members) – 5,500 members in CY2016                  Enrollment in Silver Access ACA Premium Assistance will exceed 750 members annually by 2018 (new program in 2016) – 171 in CY 2016                  Fewer than 2 percent of DuPage County children will be uninsured by 2018 (versus current 3.4%)</p>				
	Baseline	Current	Target	Status Updates
<p>Impact Objective 1.1: By December 31, 2017, the DuPage Health Coalition will implement, or support implementation by a community partner, two or more new county-wide programs to increase comprehensive enrollment in benefits by DuPage County residents.</p>	0	2 new county-wide programs	2 new county-wide programs	<p><u>Silver Access</u> implemented, which provides qualifying residents with help paying their health insurance premium, allowing them to afford a Silver plan in the health insurance marketplace. Silver Access enrolled 171 members in 2016, with 400 enrolled as of March 2017.</p> <p><u>Illinois SOAR Program</u> launched to assist eligible residents at-risk or currently experiencing homelessness to access the Social Security Disability Benefits entitled to them. SOAR Providers have been trained in multiple agencies in DuPage County. The DuPage Federation hosts the Illinois SOAR Team.</p> <p><u>Supportive Services for Criminal Justice Involved Populations</u> has been launched to examine opportunities to link individuals with mental health issues to treatment at different intercepts in the criminal justice system.</p>

Driving DuPage Forward

Goal 2: Timely Access to Essential Health Services

Every individual within the target population has access to each of the following healthcare services, as needed:

- Primary Care First
- Medical specialists
- Hospital services
- Behavioral health treatment
- Prescription drugs
- Maternal/Child and Women's Health Services
- Oral health services
- Preventative and wellness services and chronic disease management
- Effective care coordination

Outcome Objective 2a: By December 31, 2018, increase the estimated percentage of DuPage County adults who report a usual person as a health care provider from 85.0 percent (2014) to 89.25 percent (a 5 percent increase).				
Outcome Objective 2b: By December 31, 2018, decrease the number of DuPage County adults who reported that they needed to see a doctor but could not due to cost from 9.3 percent (2014) to 8.3 percent.				
	Baseline	Current	Target	Status Updates
Impact Objective 2.1: By December 31, 2017, the DuPage Health Coalition will implement or support at least two new primary care focused initiatives.	0	2 new primary care focused initiatives	2 new primary care focused initiatives	<p><u>Care Coordination for Silver Access Enrollees</u> has been implemented in partnership with Young Invincibles and Hope’s Front Door, pairing financial literacy and health literacy education.</p> <p>Strides have been made to integrate data collection and communication between providers. Access DuPage has partnered with Access Community Health Network for <u>shared access to an EMR</u>. In addition, hospitals are participating in planning conversations to implement a web-based platform for alerts related to Access DuPage patients, which will help achieve high intensity patient navigation.</p> <p>Existing FQHC partners have sought federal support for <u>new FQHC sites</u> within DuPage. As of end of fall 2016, those requests were still being reviewed at the Federal level.</p>

Driving DuPage Forward

<p>Impact Objective 2.2: By December 31, 2017, the DuPage Health Coalition will implement or support at least one new initiative to support increasing access to specialty care in DuPage County.</p>	<p>0</p>	<p>1 new specialty care focused initiative</p>	<p>1 new specialty care focused initiative</p>	<p>Access Community Health Network has added <u>medication assisted treatment</u> for substance abuse at its West Chicago location.</p> <p>VNA is adding <u>psychiatric services</u> at its FQHC locations in DuPage County.</p> <p>DuPage Health Coalition is working with <u>Giving DuPage</u> to set a goal of growing specialty care provider volunteerism.</p>
